A.C.A.A.R 76/ 2012-13

Dated 06-02-2013

- Ref: 1. Application of Tvl. Hindustan Colos Limited, A-9, SIPCOT Industrial Park, Irungattukottai, Kancheepuram Dist, dated 08-11-2012.
2. CCT Letter in Acts Cell-II/35905/2012, dated 22.01.2013

Tvl. Hindustan Colos Limited, A-9, SIPCOT Industrial Park, Irungattukottai, Kancheepuram Dist (TIN: 33501663027) have filed an application and sought clarification under Section 48-A of the TNVAT Act, 2006 read with Rule 12-A of the TNVAT Rules, 2007.

2. The clarification was sought on "Polymer and Crumb Rubber Modified Bitumen" with a request for early hearing. Accordingly the dealers were requested in writing to appear on 05-02-2013 11.00 A.M. to put forth their claims. However, the dealer did not appear for hearing on that date. Therefore, clarification is given with reference to the materials furnished.

3. The dealers are engaged in the manufacture of Bitumen and its derivatives including Polymer and Crumb Rubber Modified Bitumen. It is also stated that Bituminous products are an advanced form of Bitumen and used for road laying purpose. Polymer and Crumb Rubber Modified Bitumen is nothing but an extension of bitumen / asphalt and Polymer

and Crumb Rubber Modified Bitumen is a specie of the genus bitumen. The Polymer and Crumb Rubber Modified Bitumen manufactured by them is a refined form of bitumen or an advanced form of bitumen and should be taxable at 5% under Entry 18 of Part B of the First Schedule to the TNVAT Act, 2006.

4. The dealer has sought clarification on Polymer and Crumb Rubber Modified Bitumen.

5. The issue has been examined in detail with reference to the provisions of the TNVAT Act and Rules and clarification is given as under:

6. Section 48-A of the TNVAT Act, 2006 provides for clarification on any point concerning rate of tax.

7. Bitumen is an oil based substance. It is a semi solid hydro carbon product produced by removing the lighter fractions (such as liquid petroleum gas, petrol and diesel) from heavy crude oil during refining process. Bitumens are used as raw materials to manufacture preparations with improved handling and application characteristics or to enhance the physical properties. In such products bitumen is often the principal component but they can contain significant proportions of other materials also. These products are often referred to as bituminous binders or bitumen products and are chemically classified as bitumen preparations. Modified bitumens are bituminous binders whose performance such as elasticity, adhesive or cohesive strength have been modified by the use of one or more chemical agents. These agents may be polymers, crumb rubber, sulphur and phosphoric acid among other materials. Crumb rubber is a recycled rubber from automotive scrap tyres and used to add efficiency, robustness and durability to roads.

8. There is no specific entry for Crumb Rubber Modified Bitumen Emulsion in any of the Schedules under TNVAT Act and hence classified under Entry 69 of Part C to First Schedule taxable at 14.5%.

9. Entry 69 of Part C of the First Schedule reads as follows:

“Any other goods not specified in any of the Schedules.”

10. Polymer and Crumb Rubber Modified Bitumen fits into the description given under entry 69 of Part C of the First Schedule.

11. The clarification, therefore, is that **Polymer and Crumb Rubber Modified Bitumen** is unclassified item taxable at 14.5% under Entry 69 of Part C of the First Schedule to the TNVAT Act, 2006.
